MEMORANDUM OF OBJECTS AND REASONS

Statement of Objects and Reasons for the Bill

The Constitution mandates County Governments to levy charges for services provided and to generally fund the activities provided under the Fourth Schedule of the Constitution. The said revenue is meant to supplement the allocation from the National Government to the County with a view to financing the County budget.

The Finance Bill is mandatory for the completion of the legal instruments in the budgetary process. The Bill formulates the proposals announced in the Budget relating to collection of revenue and other taxes for matters incidental thereto.

It raises various categories of levies and charges that shall be applied to various services in the County in line with the market rates.
